

Comprehensive Solutions for Global Telecommunications

At Aditi, we understand the unique demands and timely challenges the telecommunications sector faces. Whether it's overcoming global labor shortages, finding cost effective ways to hurdle supply chain obstacles or optimize inefficient workflows stalling deployment, **telecom leaders worldwide turn to Aditi for strategic outsourcing and business process optimization.** With dedicated service delivery teams located across Argentina, Uruguay, Ecuador, Peru, Colombia, and Canada, we significantly reduce the time and costs associated with **vetting, sourcing and placing the skilled talent need to move your critical projects forward.**

Our tailored long-term and project-based staffing bundles are proven to help telecoms add scalability, enhance automation, boost workforce productivity, and resolve complex technical challenges severely impacting the bottom-line.

Digital Evolution

Team Augmentation

Project Overview

When one of the largest telecommunication companies in Latin America required a large-scale digital transformation, Aditi overhauled their CRM forms to a more advanced and dynamic React + Java framework. Aditi provided a **specialized team, equipped with the necessary skills and expertise** for project development, support and integration, in a remarkable time frame of just 45 days.

Tech Stack

Backend: Java 11+, HTTP, REST, SOAP, GraphQL.

Frontend: REACT, Redux, GraphQL with Apollo, Typescript.

Support as a Service

Managed Services

Project Overview

A leading multinational digital communications technology corporation approached Aditi to enhance their security conditions. The company was facing escalating security concerns from clients, but could not reassign their database engineers -- as they were needed to maintain core operations. Recognizing these challenges, Aditi identified the need for an external, specialized team that could proficiently address their clients' evolving security needs.

Digital Evolution

Team Augmentation

Project Overview

One of the largest American telecommunications companies, needed to develop a web application that could provide instantaneous access to all major SIP providers in the United States through a single platform. Aditi, known for its global talent accessibility, rapidly assembled a specialized team from Argentina, leveraging their expertise while significantly reducing costs. Aditi has collaborated with the client for over three years to develop, design, and provide full-cycle project support.

Deployed Team

Service Desk Team

Level I and Level II

Technical Support Services

Included were incident and case management, change management, endpoint and application support, network and security support, Windows/Linux database administration.

Deployed Team

Aditi assembled a versatile team with a wide range of experience from our Solution Center in Buenos Aires, Argentina. Currently, Aditi performs DevOps maintenance on on-premise and cloud infrastructures, for both frontend and backend applications for end-users.
